**Special Protective Equipment for Firefighters** Wear self-contained breathing apparatus and protective clothing to prevent contact with eyes and skin

**Special Exposure Hazards** Carbon oxides, Sulphur oxides. Avoid inhalation of fumes, which may be toxic or irritating.

## 6. Accidental Release Measures

---

**Personal Precautions** Use of personal protective equipment is recommended as described in Section 8. Isolate hazard area and deny entry to unprotected personnel  
Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.

**Environmental Precautions** Prevent further leakage or spillage if safe to do so. Keep out of drains, sewers, ditches and waterways.

**Methods for containment and clean up** Small spills may be contained and cleaned up with paper towels or absorbent pads. Absorb large spills with sand or vermiculite and place in a closed container for waste disposal. Avoid physical contact during removal.

## 7. Handling and Storage

---

**Precautions for Safe Handling** Avoid contact with eyes, skin and clothing. Do not ingest. Avoid inhalation of vapour or mist. Wash hands thoroughly after use. Keep away from sources of ignition - No smoking. Take measures to prevent the buildup of electrostatic charge.

**Conditions for Safe Storage** Keep container tightly closed. Keep container in a cool, well-ventilated area, and away from light. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Do not expose to excessive heat. Store away from oxidizers.

## 8. Exposure Controls / Personal Protection

---

**Permissible Exposure Limits** USA ACGIH Threshold Limit Values (Formamide): TWA 10 ppm  
USA NIOSH Recommended Exposure Limits (Formamide): TWA 10 ppm, 15 mg/m<sup>3</sup>

**Engineering Controls** No special controls needed.

### Personal Protective Equipment

**Eye Protection** Wear chemical splash goggles and face shield when eye and face contact is possible due to splashing or spraying of material.

**Skin Protection** Use chemically resistant gloves and a lab coat with sleeves.

**Respiratory Protection** Exceeding exposure limits is unlikely during normal usage. However, if irritating vapors are produced, respiratory protection is recommended. Attempt to reduce exposure levels to an acceptable range.

**General Hygiene Measures** Avoid contact with eyes, skin and clothing. Wash hands thoroughly after handling and before eating or drinking.
